

Mr. Huston
*LH***Journal****Office of Legislative Counsel****Tuesday - 25 February 1958**

Talked to the Director concerning the appearance of [redacted] and John Warner before a small group of the Senate Appropriations Committee considering a supplemental appropriation for Commerce on a clearing house of Russian translations. I explained that Senator Hayden had requested that we be available for questions. The Director approved this action.

Also talked with the Director about the transcripts for the most recent briefings of the Joint Committee on Atomic Energy, the Defense Subcommittee of House Appropriations and the Senate Foreign Relations. I indicated that they had been corrected in OSI and ONE and that I also had gone over them and recommended to him that they be returned for marking of the master transcripts without his going over them. He stated that if there was nothing in them to kick back to go ahead. These will be forwarded in due course.

John Severy, Bureau of the Budget, called to inquire whether we had any views on H. R. 3527 which he indicated was to become the Administration's bill on fringe benefits. We will look into the matter and advise him later.

Dr. Scoville called to inform me of a request from the Disarmament Subcommittee of the Senate for a briefing on U. S. detection capabilities for Soviet nuclear explosions. Scoville was informed that the Department of Defense should be advised that if the Committee wanted anything from CIA they should query the Agency and we would consider the matter. (See memo to DCI this date.)
